

To Whom It May Concern:

Re SMITH, Charlie

DOB __/__/____

Hospital record number: _____

1 April 2011

To Whom It May Concern:

I've been asked by Mr. Smith's daughter, Petunia, to write this letter explaining his neurological diagnosis. I am a physician, duly licensed in the province of Ontario. Mr. Smith has been one of my patients since 2008 and has continued under my treatment. As a result of Mr. Smith's diagnosis of frontotemporal dementia, he has very severe impairment in comportment and judgment. We have had concerns for his ability to navigate the outside world throughout his illness, and the family is quite challenged to make sure that his impulses do not result in breaking the law or harming others.

If you require further information, please call our clinic at [phone number for nurse].

Sincerely,

[Dr.'s name and titles]

Senior Clinician-Scientist, Rotman Research Institute

Assistant Professor, U of T Neurology and Geriatric Psychiatry
